I am an international student for Bachelor of Application Development in Deakin University

**Here is what I have done so far**

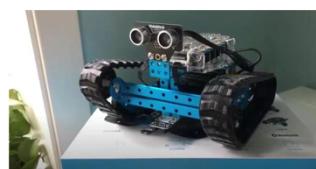

## Here is what I have done so far

### Project 1:Find a restaurant

It is an app that can help customers find the restaurant they want on the map.

### Project 2:Maze robot

This project shows how to make robot find paths and avoid obstacles automatically.

### Project 2:Maze robot

This project shows how to make robot find paths and avoid obstacles automatically.
